

3804.0922

Mounting set 22 mm

The set consists of a front, rear and side profile that are mounted into wooden joists using screws. The drain unit is inserted into the profile and clicks into place.

Ensures correct placement and fitting of drain unit in wooden floor joist construction. Adjust to correct length by cutting front and rear profile

Note: Also available as Mounting Set (38 mm) for wooden floor joist construction with base.
